

Ethics at the Division of Medical Physiology:

Identify the correct committee

- Visit [SU websites](#)
- Start application
- >> [See more information here.](#)

Write your application!

- Give yourself enough time- this is a lengthy document

Submit to the SROC

- This is for in-house approval and advice
- Obtain Scientific Review Statement (>> signed by SROC member)

You are now ready to compile all the required documents, and submit to the Ethics committee

If you are associated with the Division of Medical Physiology, and you work with humans, animals, transgenic cell lines/organisms or clinical samples you will need ethical approval through SU (new or as amendment of existing project)
