## HOW TO CREATE A CLICKER ACTIVITY IN SUNLEARN

---

- **Log in** to the specific module page on SUNLearn.
- **Turn editing on** at the top right of screen.
- Identify the topic under which you wish to add the clicker.
- Click **Add an activity or resource** at the bottom right of the topic.
- Choose **Clicker** and click on **Add** at the bottom of the pop-up screen.
- Enter a **Name** and if preferred a Description for the activity.
- Click on **Save and Display** (scroll down).
- In the next screen choose **Edit questions** just above the Clicker item number.
- From the dropdown list **select** the type of question you would like to add.
- Once you have added all the questions to the Clicker test go back to **Overview**, next to Edit questions.
- Click on the **magnifying glass**, next to the name of the test, to preview it.
- Make a note of the **Clicker item number** as students need this to access the TEST.

---

## HOW TO ANSWER A CLICKER QUESTION

---

Note: Students need any device with internet access to participate. At no cost, registered and unregistered devices can use the clicker Wi-Fi points in certain lecture halls to access the Clicker activity.

- Go to [yourls.sun.ac.za/c](https://yourls.sun.ac.za/c) (note there is no www in front of the address)
- Enter your **student number/UT number** and the **Clicker item number** that was generated for the specific test and click **Submit**
- Answer the questions and click **Submit your Answer**

---

## HOW TO VIEW STUDENTS ANSWERS

---

- Access the test in SUNLearn.
- Above Clicker item number choose **Show responses** to see the number of responses received. To view a bar graph summary of the responses click on the next **Show responses** button next to the respondents' ids.
- You can also export these responses in Excel format under the option **Analysis**.

Note: If this is done in real-time you need to refresh the page in order to view new responses as they are submitted.
