Communications Officer Term Report 1

Preamble

During this term, I functioned as the Chairperson for the Campus Engagement Task Team. Although I am a first year, the Executive committee found a way in which I could be a part of the SPC. Throughout the term, I learnt new things and gained more experience.

Leadership and Development Showcase

During this term, there was a fair for leadership bodies on the Rooiplein. It was to increase the Student Parliament's visibility, which is the purpose of the Campus Engagement Task Team. Student Parliament did not have the necessary equipment to fully achieve the goal of visibility and as a result, not many people stopped by with interest. There were a select few, however, who did stop by, which means that slowly Student Parliament is increasing its visibility. Because of people I know personally who I greeted walking by, that also increased visibility as well.

Remarks

I observed how other bodies were drawing in interest, especially with the use of merchandise.

Recommendations

I suggest, if not already obvious, that Student Parliament obtain merchandise to increase visibility. However, if not possible, there are other ways in which visibility can be achieved and this is by making our stand more appealing and keeping in mind the interests of the surrounding students. For examples, balloons for set up and snacks on standby.

In summation, I would like to work hard with the Campus Engagement Task team to increase Student Parliament's visibility.

X 

Nikolaa de Klerk
Campus Engagement Task Team Chairperson
